

## **VN Studios SRL**

### Quality Policy

**VN Studios SRL** designs and develops software and IT applications quickly and efficiently. Seeking its developments to promote clients' services with the latest generation methodologies and tools.

Our product tries to offer effective solutions to the cost/benefit/time-equation with an engaged and efficient group of people for the provision of services, growth and development of your company.

In **VN Studios SRL** our quality management system is the tool use to plan and control all our processes, taking into account a continuous improvement and the fulfillment of relevant requirements.

Our main goal is to focus on clients' satisfaction and process efficiency.

- The main objective is to maximize current clients' expectations about our services.
- The client will be the one defining quality requirements for its specific use. The measurable specifications on our services are agreed jointly so that our services fulfill their needs.
- Personnel is constantly trained and each supplier shall fulfil quality established regulations.
- Relationships with our clients and suppliers have as main characteristic cooperation and open communication. We are committed to provide enthusiastic and professional assistance to any requirement that our clients have.
